Model NO.:

FUT0240QV129B-ZC-A3

SIZE

2.4" TFT LCD Display

LCD type :	TFT/IPS
Viewing Direction:	IPS All
Outline Dimension	67.30(W)*128.60(H)*3.19(T)mm
Active Size:	36.72 (H) x 48.96 (V)mm
Specification	ROHS REACH ISO
Operating Temp:	-20°C ~ +70°C
Storage Temp:	-30°C ~ +80°C
IC Driver:	ST7789T3-G4-1
Application :	Smart Watches/Mobile Medical Equipment/Mobile Game Consoles/Industry Instruments
Country of Origin :	China
Luminance	260-320 nits Typical
Structure	2.4 inch TFT LCD Display with Capacitive Touch Screen

Application

1. The 2.4 inch TFT LCD Display is a display screen suitable for handheld devices and small electronic products. Its application and product advantages are as follows: 1. Smart bracelets and smart watches: 2.4 inch TFT LCD Display are ideal for wearable devices such as wristbands and watches because of their moderate size and easy portability, while providing high-resolution and high-definition display effects.

2.Mobile medical equipment: Many portable medical equipment, such as blood pressure monitors, blood glucose meters, etc., require a small display screen. The 2.4 inch TFT LCD Display can meet these needs, providing clear information display for medical equipment.

3.Mobile gameconsoles: With the continuous expansion of the mobile game market, 2.4 inch TFT LCD Display are also widely used in mobile game consoles. Its high resolution and high image quality can provide more realistic game images and smoother operating experience.

4.Industrial instruments: Many industrial instruments require a miniaturized design, so a suitable small-sized TFT display screen is required. The 2.4 inch TFT LCD Display is the best choice to meet these needs.

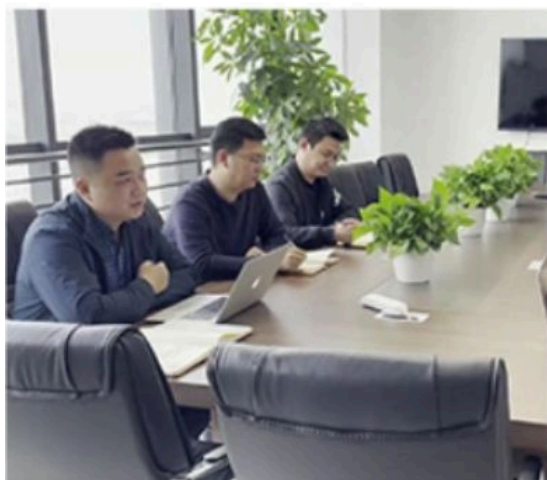

Product Advantages

1.High resolution: The 2.4 inch TFT LCD Display can provide high resolution and high contrast, and users can get clear and vivid images and charts.

4.Wide viewing angle: The 2.4 inch TFT LCD Display has a wide range of viewing angles, which not only greatly improves the user experience, but also facilitates shared viewing by multiple people.

5. Fast display speed: The 2.4 inchTFT LCD Display has a fast response speed and can support fast dynamic images and video streaming media, bringing users a good visual experience.
